

OUR LATEST MINIATURE CUT-OUT!

The **RETIREE!**

"Retirement? Phooey!"

That's this guy's attitude toward calling it quits. Someday you'll find out, as he did, that relaxing into a life of leisure after forty years of a life dedicated to getting up and going to the office every day just ain't that easy. Sure, it may work out for a while, but give it a little time, and you'll see; Tinkering in the woodworking shop or a daily round of golf just ain't what it's cracked up to be. Soon, guys like this one develop a yearning to get back to punching that time card.

Next stop: Home Depot, the local Amoco station, Walgreens, Saint Louis Bread Co.....anywhere an old dog can learn some new tricks (on a part-time basis).

Work to live? No, sir: Live to work!

No. 20

DIRECTIONS FOR ASSEMBLY

- 1 Cut along the dotted line.
- 2 Fold together. (The edges should match up! You know you've done it right if both front and back illustrations of the miniature are clearly visible.)
- 3 Paste the opposing sides together.
- 4 Fold out the footstand and...

...Presto!

You've got a miniature Retiree!

WOW!
HE'S A
@*#%@-ING
MACHINE!
